This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

The Registers of Solihull, from their commencement in 1538 to 1812, are contained in five volumes. The first contains Baptisms, Burials and Marriages from 1538 to 1668, the second contains similar entries from 1669 to 1769 (Marriages to 1754), and the third comprises the period 1770 to 1812. All are of parchment leaves, and are in good condition. Volumes four and five contain Marriages 1754 to 1812.

The first Volume, which is now for the first time printed, contains 127 parchment leaves, that is, 254 pages, and the arrangement of the entries is as follows:—

			Pages of the Original.
Baptisms	1539-1561	...	1-10, in two columns.
"	1561-1565	...	28-29, "
"	1566-1567	...	33, in columns 2 and 5.
"	1567-1668	...	34-254, in column 2.
Marriages	1538-1561	...	12-16, in two columns.
"	1561-1565	...	30, "
"	1566-1567	...	33, in columns 1 and 4.
"	1567-1668	...	34-254, in column 1.
Burials	1538-1561	...	18-27, in two columns.
"	1562-1565	...	31, "
"	1566-1567	...	33, in columns 3 and 6.
"	1567-1668	...	34-254, in column 3.

There is every appearance of two leaves having been cut away at the beginning of the volume. The first may have been a sort of title page, and the second no doubt contained the entries of Baptisms commencing in November 1538 and ending August 1539, since those of Marriages and Burials commence in November 1538.

Pages 11, 17 and 32 are blank except that page 11 has a notice beginning "Sexto die mensis Novembris," etc.

This volume is bound in full calf, and in large capital letters, stamped on the outside, is the following inscription :—

THE PARISH REGISTER
OF SOLYHULL, WARWICKSHIRE.
BEGINNING 1538. ENDING 1668.
REBOUND 1769.
RICHARD SUTTON YATES, D.D., RECTOR.
GEORGE LYNALL, } CHURCH-
THOMAS SWINBOURN, } WARDENS.

Many Parish Registers contain notes of passing events, such as thunderstorms, gales of wind and rain, floods, and other similar occurrences; but although there are none of this kind in the Register of Solihull, still there are one or two entries that call for notice.

On page 141 will be found two entries of penance done by individuals of the names of Richard Greswold and Henry Yves, but we are left in ignorance of what the offences were which called for their publicly making their submission.

There are also several curious entries of persons being buried by women, or in some cases by laymen (*laicos*). What is intended by these entries is not at all clear. Perhaps, for some reason, the burial service was not read over them. These entries will be found on pages 187, 190, 192 (2), 194, 198, 202, 206.

One of the Beadles or Vergers of early times, named Reginald Veale, attempted to latinize his name and signed himself on page 36 as Reginaldus Velus.

The transcription of the first volume was commenced some years ago by Mr. Richard Savage, the courteous Curator of Shakespeare's birthplace, Stratford-upon-Avon, later on Mr. Philip E. Martineau, of Solihull, continued it for a while, and the remainder was undertaken by Mr. Edward Alexander Fry, the latter of whom has seen the whole work through the Press.

It has been thought best to print the whole of the Baptisms together, and in similar manner the Marriages and Burials, though as will have been noticed in the summary of the contents these three classes of entries were entered cotemporaneously on the same pages.

It remains only to thank the Rector, the Rev. T. B. Harvey Brooks, for his kindness in allowing the Register to be transcribed and printed, and thus preserving its contents for the future from those three great enemies of Parish Registers, damp, grubs, and fire.

The Index was compiled by Miss Edith Hobday.

The list of Rectors of Solihull is a most remarkable one as will be seen by a careful perusal of the dignities many of them have held. It would be difficult to find another Rectory that has supplied so many men who have risen to such heights of ecclesiastical importance. Here we find Chancellors and Barons of the Exchequer, Chief Justices, both of the King's Bench and Common Pleas, Treasurers and Attornies General, all which offices in former days were held by ecclesiastics, who, of course, were then the only learned persons in the kingdom. Here we get Chancellors of various dioceses, Deans, Archdeacons, Prebendaries by the score, lastly, but not least, a real Bishop, and to crown all the last of the Mitred Abbots of Westminster who sat in the House of Lords.

It is difficult to trace exactly when all of the various appointments were made and when vacated, but it is certain that very many were held at the same time, for then were the days of Pluralists, and there is little doubt that some of the so called Rectors of Solihull were merely priests put in by the Rector to keep the living warm. He would doubtless draw the income in full, and give but a slender pittance to the man he put in to do the work for him.

The skeleton list given by Dugdale in his "Antiquities of Warwickshire" (Thomas' edition) has been taken as a basis, but the details have been filled up by recourse to such works as Le Neve's "Fasti Ecclesiæ Anglicanæ," Henessey's "Novum Repertorium," Foster's "Alumni Oxonienses," The Dictionary of National Biography, Ogilvy's "Book of Dignities," The Patent Rolls, and other similar works of reference.

The Patrons of the living and many additional particulars respecting the Rectors, will be found in a forthcoming "History of Solihull," by the Rev. R. Pemberton.
